ADVERTISE THE CROW ROUTE

Towns and cities lying along the Red Trail from Medicine Hat to Vancouver will make no mistake in co-operating to draw special attention to this important highway artery, lying as it does within a short distance of the Canadian-American border over a distance of some 700 miles. In few places is this highway more than 50 miles from the border ports of entry where American tourists enter Canada in increasing numbers each year. The route also has the attraction that it passes through the Alberta foothills, the Crow's Nest Pass and the beautiful Kootenay, Arrow and Okanagan Lakes country, with its fruit and timber belts, magnificent mountain scenery with plenty of fine camping places where fishing is good in the summer and where hunting is good in the fall. Add to this the fact that the route is open the year round, that it is the short route from the prairies to the Pacific and that the British Columbia section is being improved and shortened, and there can be little doubt that it will always be an important factor in the tourist traffic of Alberta and British Columbia.

For the past 12 or 15 years the Red Trail via the Crow's Nest Pass has been advertised to the touring public south of the line and in the prairie provinces. Now, more than ever, should this advertising be carried on and the attractions of the highway made more widely known.—Lethbridge Herald.

BOY SCOUT DISTRICT

NEWS ITEMS

On Friday, March 4th, in Columbus hall, Blairmore, the Crow's Nest Pass District Council will hold a social night to raise money towards the summer camp expenses and other district activities.

A number of leading local artists from Coleman, Blairmore, Hiltz, and Bellevue have very kindly consented to contribute to a varied programme of song, piano and violin. Father Donovan, of Bellevue, always versatile and interesting, will give a brief address on "Citizenship". Commissioner Bachman, of Edmonton, well known to the people of the Pass, who is to conduct a Scoutmaster's Vestibule Training course at Blairmore, commencing February 25th, will give a short talk on "Scouting and what it means". Tickets at 25 cents may be obtained from members of the District Council and the local Scouts. Please keep the dates, open and help the cause.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are: "The Red Trade Menace," by H. R. Knickerbocker; "The White Squall," by J. C. Hutcheson; "The Ivory Hunters," by Gordon Stables; "Insect Ways," by Clarence M. Weed; "History of the English People," by Green; "Favorite Fairy Tales," by Andersen; "Jesus Lover of Men," by Rix; "Principles of Psychology," by J. R. Kantor.

The library hours are Tuesdays and Thursdays from 7 to 9 p.m. and Saturdays from 7 to 10 p.m. The fees are \$1.00 per year for residents and \$2.00 per year for non-residents.

We have received a very fine collection of books from Mrs. Hadwell. These books were the property of Mr. W. Hadwell, who died in Bellevue some time ago. The collection includes works on Religion, Philosophy, Church History and Ancient History. The books are being catalogued and will be placed on the shelves as soon as they can be prepared for use. The library board greatly appreciates this valuable addition.

The story visited the home of Mr. and Mrs. Roche Oliver on Monday morning, leaving them a son.

"YELLOW TICKET"

PROMISES PATHOS THRILLS, ROMANCE

Romance, intrigue, charm and pathos are elements that make "The Yellow Ticket," Raoul Walsh's production for Fox Films, opening its much heralded engagement tonight, at the Cole Theatre for the balance of the week, a picture of unusual entertaining quality.

Elissa Landi, the beautiful and talented daughter of an Austrian countess, novelist and emotional actress, portrays the leading feminine role, with Lionel Barrymore and Laurence Olivier heads me newcomer from the London stage, in the principal male parts. Other notables on the screen in the cast are Walter Byron, Rita La Roy and Sarah Padden. "The Yellow Ticket" reveals a true and dramatic picture of the days of barbaric splendor in Russia, an uncensored etching of the most autocratic period in modern history.

It depicts the dramatic adventures of a beautiful and virtuous peasant girl who failing to secure a passport to visit her father who is dying in a distant prison, accepts a yellow ticket which permits scandalous women to travel any place unimpeded.

Failing to register at the police station when she reaches St. Petersburg, she is thrown into prison. When she is released she finds herself an outcast, hounded and persecuted by the police.

Eventually she falls in love with a handsome, English newspaper correspondent and becomes his secretary, but she cannot escape the police. She becomes so enamored in a web spun for her by his insidious head that she is, at last, forced to shoot him.

How she escapes the horrible fate that awaits her, offers one of the most startling denouements ever presented on the screen.

As the persecuted girl, Miss Landi is said to rise to new emotional heights and as the cruel and lustful head of the secret police, Barrymore, it is claimed, excels anything he has previously achieved on the screen.

SPECIALLY ARRANGED TOURS INNOVATION FOR CANADIANS

Something new in trans-Canada holidays, in which the railway, automobile and steamship will be combined in pleasing variety, is offered for the coming summer through two special tours now being arranged by the Canadian National Railway for July and August. According to the tentative itinerary, those who take part in these tours will traverse over 8,000 miles of Canadian territory, 6,000 miles by train, 1,000 miles by steamer on the Great Lakes and the Pacific Coast, and over 500 miles by motor car in the Rockies and principal cities visited.

All the larger cities on the Prairies will be included in the itinerary, to gether with a triangle trip by steamer between Vancouver, Victoria and Seattle, with two days on the inland seas between Vancouver and Prince Rupert. All-inclusive rates are offered for both tours, the initial cost including all charges for fares, sight-seeing trips, meals on boat and train, and motor transport.

DISTRICT SCOUT

ASSOCIATION NEWS

A meeting of the District Council will be held on Monday, February 29, at 7:30 p.m., in St. Luke's hall, Blairmore. The business is to meet commissioner Bachman on the occasion of his visit to the Pass. All members are urged to be present.

A lady attending a society function, feeling indisposed, ordered her chauffeur to drive her to her doctor. The doctor diagnosed her case very quickly. "You have caught a chill," he said. "Drive straight home, get dressed and go to bed."

DISTRIBUTION WITHOUT WASTE

WE APPRECIATE YOUR APPROVAL

We are particularly appreciative of the reception accorded our store in Blairmore. We came as strangers but you made us royally welcome. Visitors were generous in their complimentary remarks: They said they liked the many ultra modern features of the new store—its cleanliness, roominess, massive displays, convenient arrangement—and especially—the attitude of "pleasant eagerness to serve displayed by all the sales-people." If you were one of those unable to attend the opening, remember, this conveniently located, modern food shop is here permanently, offering you every advantage and economy to be found anywhere and many that cannot be found elsewhere.

"Fresh from the Gardens"

Are We Over-Governed?

Considering, in this concluding article, some of the broader aspects of the above subject which we have been discussing in this series of articles, it is self-evident that any conclusion to be reached must be based upon the effect upon (a) efficiency; (b) economy; (c) the individual taxpayer. It might be possible to achieve a substantial reduction in Provincial expenditures by imposing upon the municipalities the obligation of providing certain services, as, for example, the making of smaller grants for schools or municipal roads, but this would simply mean increasing the burden to be borne by the individual taxpayer in his municipality in exact ratio to the lessening of that burden upon the same individual in his capacity as a Provincial taxpayer. Thus, there would be no gain. Or a lessening of the weight of taxation imposed by the Province might be effected by transferring certain obligations to the Dominion, as, for example, Old Age Pensions. But, again, there would be no gain because what the individual did not pay to the Province in taxes he would have to pay in increased Federal taxes.

Any gain, therefore, must be the result, not of a shifting of the burden from one shoulder to another, but the entire elimination of the burden. This at once brings us face to face with the real problem. That is, are the people—that is, the taxpayers—prepared to forego services and conveniences now provided by the State through taxation, and do without them altogether, or provide them individually for themselves where possible, in order that taxes may be reduced? Are they ready and willing to do without services and conveniences they expect will be provided in days to come, and do without them until the country is more thickly populated, better developed, and producing a substantially larger volume of new wealth annually?

Reduction in governmental machinery, whether it be accomplished through the merging of small school districts into larger districts, combining several small municipalities into one, or uniting the three prairie provinces into one large province, must result in some inconvenience to the people now served by the smaller units. If the three provinces were made one province, the Dominion Treasury would be saved the payment of two of the three grants now made to the Provinces for "Government and Legislation." As Federal taxpayers we would save this money; as Western Provincial taxpayers we would lose it, but if the cost of Provincial Government was reduced as a result, it would be money saved.

While it is open to serious question whether union of the three Western Provinces is now a practical proposition, especially when a comparison is made between the size of our Canadian provinces (except the three Maritimes), with the much smaller states across the line, or with such countries as Belgium, Holland, Denmark, Sweden, Norway, Italy, or even the larger European countries, except Russia, and having in mind the ultimate large populations of these three provinces, it is quite practical to effect substantial savings through joint Provincial action, or in conjunction with the Dominion.

Such action is already being taken. Some years ago Saskatchewan disbanded its own Provincial Police Force and made a contract with the Dominion Government whereby the Mounted Police now perform police duties for the Province, thus effecting a large saving. Now Alberta and Manitoba are adopting the same policy. The need for a School for the Blind in the West is realized, but one such school will serve the needs of all three provinces for many years to come; there is no necessity for erecting and maintaining three such schools, and, fortunately, this is recognized. We repeat, what was stated in a previous article, that, in our opinion, one Court of Appeal for the three provinces could handle all appeal cases, and it would appear the part of wisdom for the three Governments and the Dominion to give consideration to effecting such an economy.

These are but examples where inconveniences to the public would be small while the savings would be large, and are cited as indicating the general policy which, in the interests of the taxpayers, should be followed. But to achieve even these reforms, and to inaugurate such policies for future development and extension, will necessitate a larger patriotism on the part of all, and the elimination of those local, jealous, and sectional ambitions, all those purely selfish considerations which now operate to prevent many economies in governmental administration. All such considerations must be ruthlessly set aside for the common good of all taxpayers. If they are not it will be well nigh hopeless to effect necessary economies, or to prevent an even more serious condition of being over-governed than at present exists.

Governments are not so much to blame as are the people themselves, because Governments have acted in the past, and will act in the future, as the people desire, and if the people are actuated by petty, local, selfish considerations, rather than by a large and fine consideration for the welfare of the whole, their views will be reflected in future governmental action. The people can and will get what they demand, and so, in the final analysis, they must do the paying through the medium of taxation, it is up to them to decide just what they want.

A Queer Profession

London Man Had Wide Reputation As Professional Toastmaster

William Knightbridge, for 40 years the most prominent professional toastmaster in Great Britain, is dead. He was 73 years old.

Knightbridge started life as a dancing instructor and eventually acquired a wide reputation for his ability to conduct the formalities of after-dinner proceedings. Arrayed in a scarlet coat, black knee breeches and buckled shoes—the uniform was his own creation—his voice powerful yet decorous, he would still the loudest company chattering over coffee.

To enable them to drive their automobiles over bodies of water two Texas men have built pontoons on which the car is fastened, its rear wheel being geared to a propeller.

Price 50c a box

Death of Famous Actress

Mrs. Fiske Dies At Her Home In New York At Age Of 66

Minnie Maddern Fiske, well-known actress, died at Long Island recently at the age of 66. Mrs. Fiske first appeared on the stage in a child's part when three years old; at 12 she was alternately playing leading roles and old women parts, and at 15 she became a star under the name of Minnie Maddern. On March 19, 1880, she married Harrison Grey Fiske. Mrs. Fiske has starred in numerous plays, and is identified especially with "Tess of the D'Urbervilles," "Becky Sharp," "The Rivals" and "Irene." She was a great favorite of the public.

English postmen must be at least 5 feet 4 inches tall. Cuba expects its present sugar crop will be over 3,000,000 tons.

Nerves A Complete Wreck Sat Up Half The Night

Mrs. John Ross, Lake Park, Ont., writes: "I was troubled so much with my nerves I was a complete wreck. I could not do my work, and would have to sit up half the night on account of not being able to sleep. One day a friend recommended Milburn's Heart and Nerve Pills. I used one box and one box and by the time I had taken six boxes I was as well as ever."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Seek Lost Girl

White Girl Living Among Aboriginal Tribes In Australia May Be Found

A white girl who for nine years has been living among a tribe of aboriginals known as the "Widja" in the north of Northern Australia was sought recently on basis of rumors filtering back to civilization.

Reports that the beautiful young girl, about 18 years old, had been seen recently resulted in organization of an expedition to penetrate the wilds.

The reports were given substantiation by other reports which followed sinking of the Australian trader commission yacht "Douglas Mawson" in 1923. At that time it was said a woman and her 9-year-old daughter had survived and had made their way to the village of the native aborigines about 400 miles east of Port Darwin. Subsequently the mother was reported to have been killed by the natives and the girl kept captive.

Gas in the Stomach Is Dangerous

Recommends Daily Use Of Blasted Magnesia To Overcome Trouble Caused By Acid Indigestion

Gas in the stomach accompanied by a full, bloated feeling after meals are the most certain evidence of the presence of hydrochloric acid in the stomach, creating so-called "acid indigestion."

"Acid stomachs are dangerous because so much acid irritates the delicate lining of the stomach, often leading to ulcers. Food ferments and sours, and the fermentation produces gas, which tends the stomach and hampers the normal functions of the stomach. The gas often affects the heart."

"It is the worst of folly to neglect such a condition, or to try to cure it with ordinary digestive aids which have no neutralizing effect on the stomach. Instead of your drug store a little Blasted Magnesia, or take a spoonful or four tablets in water right after each meal. This will drive the acid wind and blast right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no more trouble. Blasted Magnesia (in powder or tablet form) is harmless to the stomach, inexpensive and effective. It is used by thousands of people to cure their stomach troubles. It is used by those with no more fear of indigestion."

Industrial Brandon

Manitoba City Serves a Rural Population Of Some 200,000

Mr. W. Burton Ford, Professor of Economics at Brandon College, points out in a general industrial report that Brandon serves a rural population of about 200,000 in Western Manitoba and Eastern Saskatchewan, aided by a network of good roads, three main railway lines and 26 branch lines. The value of Brandon's manufactured goods is \$4,500,000 annually. These include 16 different kinds of vegetable products and 19 from iron and steel. Brandon's population, as at April, 1931, was 17,776.

A Promising Industry

Hundred Acres Of Peas Neth

Manitoba Farmer \$4,000 One of Western Canada's youngest but most promising industries was closed this season on February 11, when a final shipment of two cars of dried field peas from St. George's Man. were piled to an eastern soup manufacturing concern. The Pioneer Growers at St. George's realized a yield of 40 bushels to the acre with an aggregate yield of 4,000 bushels, selling at a cash price of one dollar a bushel F.O.B. cars.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Great Scenic Highway

Upwards of 2,000 men are now employed in the construction of a great scenic highway through the Canadian Rocky Mountains. Some ten camps have been established between Jasper, Alberta, and the Great Divide, and gangs of men are working out from them clearing the right-of-way. The road, which in a general way is part of the trans-Canada Highway scheme, will be the finest scenic highway in North America.

A rare old grandfather clock—the work of Daniel Quare, a famous London clockmaker in the time of William III.—whose owner had thought it to be worth more than £30, was sold for £425 in London.

Eleven acres of glass are used in the walls and roofs of one wing of a new factory at Beeston, England.

Only one woman is affected by color blindness to each ten men.

Transportation Difficulties

Use Of Motor Cars By Federal Officials Presents Problem For Auditor-General

Modern means of transportation are furnishing a problem to the auditor-general. In an annual report for the fiscal year ended March 31 last, tabled in the House of Commons, the auditor-general refers to difficulty which he experiences in obtaining satisfactory travelling expense accounts.

Rapid growth in recent years of the use of the automobile as a means of transport has introduced new features into the question of these expenses, the auditor-general says. "In many departments, officials are allowed in certain cases to use their own cars when travelling on government service, for which they are paid, in some cases a monthly allowance, in other cases an allowance based on mileage. These allowances, with perhaps a few exceptions, are determined by the departments concerned, and are far from being uniform."

"While I recognize the fact that such use of privately-owned automobiles, in some cases, may be a real economy, especially of time, there is a tendency, very difficult to check, to abuse the privilege by use of automobiles on long trips, and in other cases where ordinary rail transportation would be more economical. Another new feature which will have to be seriously considered in the near future is the increasing use of the airplane as a means of transportation."

The auditor-general adds that it has been found especially difficult to deal with accounts rendered by members of commissions and similar bodies.

Illuminated Keyholes

New Apparatus Designed To Be Of Assistance To Car Drivers

Inventors have battled it. Pen-like flashlights have been marketed as keyhole finding aids. Even the comic magazines have offered suggestions. Then came the automobile which added just one more phase to the problem. An automobile keyhole located in the most shadowy corner of the instrument panel. Thousands refused to remove the key, leaving their cars at the mercy of thieves, rather than pay a losing-guess of hide and seek with darkness.

All this, however, before the auto engineers pulled down their eyeshades, gripped their calipers and started to grapple with the problem. Weeks, months, years passed; then Europe. The answer is found in 1932; they have illuminated keyholes.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become faded from packing, hanging them out on the line, hoping to remove the creases. Then I forgot the rain and they were ruined. They were badly faded and sun-spotted. I was heart sick until the happy thought came to my mind to dye them. I just dyed them a deeper green, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors—when used either for tinting or dyeing—and never take the life out of cloth or other dyo."

Mrs. J.B.T., Montreal.

Eclipses Of The Sun

The belt of totality of the eclipse of the sun on August 31, 1932, roughly 100 miles wide, passes from the Arctic regions via the east coast of James Bay, continuing down through the province of Quebec and crossing the St. Lawrence just east of Montreal; thence it continues southward and passes into the ocean by way of the State of Maine.

It is estimated that a beech tree consumes about 80 quarts of water a day.

Too Sick For School

Mrs. Dew Says Dr. Williams' Pink Pills Restored Daughter To Health.

"My daughter was run down in health. She was so weak she could not go to school," writes Mrs. Asa Dew, of West, Quebec. "While visiting her aunt, a friend told her about a little girl in similar condition who had been completely restored to health by Dr. Williams' Pink Pills. My daughter has since been taking the Pills, and they have certainly made her stronger. She has lost that tired, sluggish feeling and now she can go to school again. She says she feels better and has more energy. I recommend Dr. Williams' Pink Pills to mothers of daughters with similar troubles."

Don't let anaemia rob your growing daughter of health and vigor. Give her Dr. Williams' Pink Pills. They are the only blood purifier. They build the system by creating new blood which imparts health, vigor and vitality. Equally good for run-down or nervous conditions. At your druggist's. 50c.

World's Biggest Light

Invention Of Briton

Claimed To Make Escape Of Night Air Raiders Impossible

While demolition squads were beginning their task of scrapping the airship R-100 at Cardington there came news of a remarkable British invention that will revolutionize war in the air.

The astonishing new invention is the most powerful searchlight in the world; it gives its operators the power to abolish darkness at will and makes escape of night air-raiders impossible.

The searchlight has been evolved by Major J. C. Savage, famous for sky-writing, after many experiments over a long period. Major Savage said:

"We have built the biggest searchlight in the world. We can make a beam in the form of a grid that has vertical and horizontal lines, or we can turn the whole of the light into a straight line which would make a fan-shaped beam of 60 degrees."

"One of the greatest uses of this lighting system will be against hostile aircraft in war. Up till now the method had been to use a searchlight beam that represents merely a spot in the sky. By means of this invention we throw into the sky a grid of light covering an enormous area."

"In that grid no aeroplane can escape, and the pilot, even in trying to spin out of the light, must be held there; and as a result of the grid, which is equivalent to a squared map, his speed, height, and direction can immediately be ascertained by anti-air gunners."

"The light has a strength of 3,000,000 candle power. No one before, I think, has been able to use anything beyond 2,000,000 candle."

"We have already been able to take this light up to 16,000 feet, but I think we shall be able to carry the beam up to 25,000 feet. There seems to be little doubt that as a result of the grid anti-aeroplane work will be completely revolutionized."

"But there are other important applications. A straight line beam of 60 degrees would not only be of great utility in lighting aerodromes but for harbor defense work and for other naval purposes."

"The light is so good that you are able to read a newspaper six miles away."

Infinitely Better

A suburban gentleman who raised strawberries invited a number of boys in the neighborhood to a strawberry party. When they had all partaken of the luscious berries, he said to them: "Now wasn't that better than stealing into my garden and helping yourselves?"

"Oh, yes sir," chorused the boys. "And why was it better?" he asked desirous of pointing a moral. "Because," said a chubby-faced youngster, "we shouldn't have had any sugar and cream with 'em."

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

His Reference

A Nigerian district officer, finding his steward unsatisfactory, discharged him. Tom asked for a reference so the district officer gave him the following:

"Tom has been my steward for 10 months. He says he wants a good berth. Anyone who is looking for a good steward should give Tom a wide one."

Hubb: Dear—"That's a perfectly gorgeous coat Mrs. Perkins has—and just like yours, I wonder if hers is real mink?"

Wife Dear—"Probably imitation. The hussy imitates everything I buy."

Roads built in the United States offer employment to about 3,000,000 persons, 1,000,000 working on the roads and the rest making material for them.

A musician in Tennessee has devised a violin bow strung with artificial silk.

Dust free air does not exist anywhere in nature.

A Northern Romance

Eskimo Couple Elope From Native Village In Furtive Manner

People who believe the thrill of romance runs more wildly through the blood of the people of warm southern climates should listen to the story of Sholeck, full-blooded young Eskimo hunter, who arrived at Churchill the other day with his bride from 480 miles north.

The young couple, who were united at Churchill by an Eskimo chief, fled from their native village far along the barren coast of Hudson Bay by dog team in the teeth of the worst blizzards that have swept the northern Arctic tundra for years. The disapproval of the father of the young bride and his power, as chief of the tribe, to forbid the marriage, did not daunt the two.

Waiting until they were positive no one was watching them, and that their trail could not be picked up in the snow, they set off on one long trip down the coast to Churchill, where another Eskimo chief would marry them.

They arrived after spending two weeks in travel. Food was running low and the huskies were being carried in the sled with the nice-looking bride. The story of the romantic elopement was told to whites through an interpreter. The pair do not plan to return to their former home but will leave shortly for points farther inland.

Alberta Sheep

Sheep Population Of Western Province Estimated At 520,000

According to Dr. F. W. Gerahaw, Member of Parliament for Medicine Hat, there are about 520,000 sheep in Alberta, the northern sections breeding on a smaller scale than the more southerly areas, where extensive ranching operations are carried out. As one man can herd 1,200 to 1,500 sheep, that number, or some multiple of it, constitutes an economic unit. The sheep population of the whole of Canada is about 4,000,000.

Persian Balm is alluringly fragrant. Adds a charming refinement to the most washed appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and beautifies the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a trace of stickiness. A peerless toilet requisite. Invaluable to all women who care for elegance and distinction.

Customer (entering large store): I want a stick, please. Shopkeeper: Certainly, sir. Lip, sugar, shaving, walking, shooting or candy?

Another reason the radio is not to take the place of newspaper very soon is that the newspaper rarely fades out in the middle of a good story.

RESTFUL SLEEP for FRETFUL, FEVERISH CHILD

—With Castoria's regulation

When your child tosses and cries out in his sleep, it means he is not comfortable. Very often the trouble is that poisonous waste matter is not being cast off as it should be. Bowels need help—milk, gentle help—but effective. Just the kind Castoria gives. Castoria is a pure vegetable preparation made especially for children's ailments. It contains no harsh, harmful drugs, no narcotics. Don't let your child's rest—and your own—be interrupted. A prompt dose of Castoria will urge stubborn little bowels to act. Thus relaxed comfort and restful sleep! Genuine Castoria always has the name:

W. N. U. 1930

POOL TO SEEK DAMAGES FROM MONTREAL PORT

Montreal, Que.—An action for \$122,230.26 damages against the Montreal Harbor Commission will be entered in Superior Court here by the Canadian Co-Operative Wheat Producers Limited, of Winnipeg.

The claimants, better known as the wheat pool, demand damages for payment of excess charges for storage and insurance of wheat in the harbor commission's grain elevators here during the summers of 1928 and 1929.

They claim that they were assessed and paid \$12,457.62 excess charges for storage under representations of the commission. They also claim that they were charged \$9,878.64 too much for insurance on the grain which they stored here.

According to the declaration of the claimants, they stored 65,360,251 bushels of Canadian wheat in the commission's grain elevators here during the periods between April 26 and December 6, 1928, and between April 25 and November 28, 1929. Under bylaw 85 of the commission's statute they were to pay certain charges for storage and for insurance for the wheat during those periods.

Those charges were paid, the declaration says, but since that time the claimants allege that they have learned that the defendants disposed and delivered to other persons by way of loan or otherwise, large quantities of the claimants' wheat and also to others who had delivered wheat to the defendants for storage.

As a result, they claim the quantities of their wheat in the elevators at the time were really smaller than those which they had stored and for which they were charged.

And for the same reason they claim that they were overcharged \$9,878.64 for insurance rates while their wheat was not in the elevators.

Maximum Working Day

Conference Will Be Called To Discuss Eight Hour Agreement

Ottawa, Ont.—The Dominion Government will call a conference with the provinces "as soon as conditions warrant such a conference being satisfactorily held" to discuss a maximum working day of eight hours called for in the treaty of Versailles to which Canada is a signatory.

In a listless debate, with all quarters of the Commons in general agreement, Hon. Hugh Guthrie, Minister of Justice, made his announcement in the House of Commons.

Debate was initiated by Hon. P. Heenan (Liberal, Kenora), who in a resolution advocated "appropriate action" for establishment of the eight-hour day. The Versailles Treaty, he recalled, had been signed in 1919 by Sir Robert Borden, and subsequently the eight-hour day principle was adopted at a conference in Washington.

A question of jurisdiction had arisen in Canada, but as the eight-hour principle had been put into operation on Dominion government works in 1930 the Dominion administration should approach the provinces for compulsory legislation through-out Canada for an eight-hour day.

War Strength Of Russia

Figures Given To League Of Nations By Soviet Government

Geneva, Switzerland.—The Soviet Government told the League of Nations and the Disarmament Conference that the Red army numbered 504,393 men. The Red air and naval forces, the report said, had 29,000 and 29,000 men respectively.

The total tonnage of the navy was placed at 160,000, including 71,000 tons of capital ships, and the air force had 750 planes.

The Ogys (Soviet secret police) guards had 45,000 in its rolls.

Russia spent a total of 1,290,000 rubles (roughly \$645,000,000) on all its armed forces in 1931.

Would Restore Titles

Ottawa, Ont.—The restoration of titles will again be advocated in the House of Commons by Armand Lavergne (Lib. Cons., Montmagny) and deputy speaker of the House. Mr. Lavergne has placed a resolution on the order paper which reads: "That in the opinion of this House, it is in the interest of the Empire and the Canadian Confederation, that the privilege of His Majesty the King to grant titles to his subjects be restored."

W. N. U. 1930

Bandits Make Haul

Trio Attack Messenger In Winnipeg and Escape With Large Sum Of Money

Winnipeg, Man.—Police cars were cruising Winnipeg streets seeking a trio of bandits who ambushed George Ridd, provincial treasury messenger, slugged him into insensibility and escaped with a satchel containing \$3,800 in cash and \$15,000 in cheques and money orders. A stolen automobile, used to whisk the marauders away, is the only clue police have to aid them.

Ridd, accompanied by Jack Campbell, provincial chauffeur, was walking from a side door to a waiting automobile with receipts from the government office, located in the government buildings, as they neared the car, two men stepped up to them and ordered Ridd to hand over the satchel.

Ridd refused and attempted to run back to the building. Anticipating that one of the robbers thrust a gun into his side and pulled the trigger. When this failed, he promptly fell Ridd with blows to the head.

Wrenching the bag from Ridd's grasp, the bandit joined his two confederates and quickly fled the scene. The stolen car in which they made their escape was rapidly lost sight of in the maze of automobiles speeding their own races back from the mid-day meal. Ridd was immediately rushed to hospital where his condition was reported as fair. The unfortunate messenger staged a plucky fight against overwhelming odds and only his lapse into unconsciousness released his hold on the money satchel.

Offer War Services

Canadian Aviators Ready To Face Dangers In Chinese Battle Front

Ottawa, Ont.—Ready to face the danger of aerial battle in far away China, 80 officers of the Royal Canadian Air Force, soon to be released from the service, have offered their services to Li Tchuin, Chinese consul-general in Canada.

The Canadian officers, who are offering their services to China in the battle against Japan, are being released by the Dominion Government due to general reductions in the estimates of the defence department.

The officers now are posted at the Ottawa, Trenton and Vancouver air stations.

The consul-general, however, has had no instructions from his government to engage aviators in Canada though the offer, no doubt, will be transmitted to the Chinese authorities at Nanking, present seat of government.

"I have no instructions or authority to engage any military instructors, air pilots or any other ranks," said Li Tchuin. "We have had many offers by Canadians to serve in the Chinese army, though today's is the largest by any one group."

Flying Officer F. N. Brooks, a member of the group, stated the offer to the consul-general was made entirely on the officers' own responsibility, without any knowledge or consent of the Canadian Government or Department of National Defence.

Probe Gordon Charges

Special Committee For This Purpose Has Been Appointed

Ottawa, Ont.—The special committee which will investigate charges and allegations made by Hon. G. N. Gordon, former deputy speaker of the House of Commons, said to reflect on the Prime Minister, has been appointed.

On motion of Hon. Hugh Guthrie, Minister of Justice, the following were appointed: G. R. Geary (Cons., Toronto South); Cassius Gagnon (Cons., Dorchester); J. L. Bowman (Cons., Pictou); William Duff (Lib., Antigonish-Guysboro); C. B. Howard (E., Sherbrooke); and Alfred Speakman (U.F.A., Red Deer).

Wheat Supply Shows Decline

Port Williams, Ont.—Another drop of over a million and a half bushels is recorded in the visible supply of Canadian wheat at all points during the week ending February 13, in the report of a statistical branch of the Board of Grain Commissioners, the total now being 188,968,203 unrefined figures.

Iceland In Air Mail Route

Reykjavik, Iceland—Judge Gudmundur Gíslason of Reykjavik, N.D., arrived here as a representative of the Trans-American Airlines Corporation for the announced purpose of negotiating for a proposed Detroit-to-Europe air mail service via Iceland.

Urges Construction Of Bridge

C. H. McIntosh Asks Royal Commission To Consider Request

Ottawa, Ont.—Meetings "in camera" of the Royal Commission on Transportation have been held here, and so far no further public sessions have been scheduled. At the last of these representations were heard from the Ontario Motor Coach Operators Association.

C. H. McIntosh, Liberal member of parliament for North Battleford, Sask., urged upon the commission the necessity for doing something in connection with the construction by the Canadian Pacific Railway of a bridge over the North Saskatchewan river and extension of an existing line northward from Saskatoon to North Battleford. Mr. McIntosh advanced that the completion of this line would serve a rich and rapidly developing country.

BRISK DEBATE IN HOUSE OVER WHEAT BONUS

Ottawa, Ont.—A brisk clash between Robert Gardiner, Alberta Union Farmers' leader in the House of Commons, and Mr. N. Campbell (Prog., McKenna), one of his supporters, featured debate on a resolution urging a bonus of \$1 per acre seeded this year to wheat. The motion was sponsored by Robert MacKenzie (Lib., Assiniboia). Western farmers appreciated greatly the existing five cents a bushel bonus, Mr. Campbell claimed; and he deplored that a "United Farmers' convention had denounced it. If the government discounted the subvention, the farmers would have their leaders to blame, he asserted.

Mr. Gardiner took issue with his supporter. The farmers who had received the five-cent bonus undoubtedly appreciated it; but the distribution of the money did not reach those whose crops had been destroyed either by hail or drought. They believed themselves entitled to some other consideration, and were favorable to a subvention such as suggested in the resolution. If Mr. Campbell visited these dried-out areas he would be in a better position to appreciate the distress prevailing there. The U.F.A. convention's resolution was fully endorsed and would be presented to the government in due course.

Mr. MacKenzie's resolution read: "Whereas the policy of extending federal assistance to western farmers on a bushel basis rather than on an acreage basis has worked out most unfairly and unjustly to the residents of those districts suffering from failure or near failure of crops;

"And whereas a largely signed petition and memorandum has been presented to the government by the secretary of the Saskatchewan Association of Rural Municipalities, praying for additional legislation to partially remedy the situation that exists;

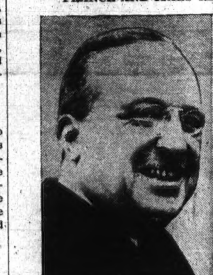

"Therefore be it resolved: That, in the opinion of this House the Government should give immediate consideration to a more equitable and less discriminatory solution of this problem."

Brief speeches, delivered for the most part by western members, characterized the debate.

British Premier Takes Holiday

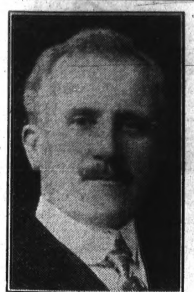

London, England.—Wearing an eye shade and a bandage over his left eye, Prime Minister Ramsay MacDonald arrived at No. 10 Downing Street, to preside over an important cabinet session. He planned to go later to his country place, Chequers, for a rest before a three weeks' holiday prescribed by his physicians.

FRANCE AND ITALY REOPEN NAVAL DISCUSSION

As a result of the efforts of the World Disarmament Conference direct negotiations have been begun between the French and Italian delegations to settle their naval differences. French Minister of War, Andre Tardieu (left) and Foreign Minister Dino Grandi of Italy (right), have already met to discuss the subject and their conversations are being followed up by the French and Italian naval experts, René Massigli and Augusto Rosso.

TESTING PROGRESS

Dr. J. A. Ruddick, Dominion Dairy Commissioner, is authority for the statement that cow testing has shown much more progress in Saskatchewan and British Columbia, than in any other Canadian province.

Tidal Wave In Alaska

Catastrophe Overtakes Native Eskimo Villages With Great Loss Of Property

Fairbanks, Alaska.—Great damage resulted from a tidal wave which swept over the western Alaska coast from the Kuskokwim river delta northward and spread many miles inland, Clark M. Garber, superintendent of the Indian Affairs Bureau, said here. He has been over the territory and reported no loss of life.

Word of the catastrophe seeped out of the inaccessible section a few days ago and Garber's account is the first authentic word picture drawn of the great mountains of ice that descended upon the native villages.

The blocks of ice, he said, crushed igloos, cabins, fish caches and destroyed fish, the principal source of food for the natives. The water flooded the igloos to a depth of four or five feet, trapping the occupants who had to escape through the skylights. Adding to the terror among the Eskimos was the fact the waves came at night, giving the natives little or no chance to save their possessions.

He said probably 2,500 persons were affected, all of whom would be in dire straits for the remainder of the winter because their dried fish supply was destroyed and hunting equipment was lost.

Mr. Garber said he believed relief work could be carried on adequately by the Indian affairs office with the assistance of reindeer supervisors.

Peace River Outlet

No Justification For Building Here Is Opinion Of Railway Expert

Ottawa, Ont.—"No western outlet is justified for the present, as the existing railways furnish the most economical route," is the conclusion of J. M. R. Fairbairn, chief engineer of the Canadian Pacific Railway, and his conferees on the committee appointed by Hon. R. J. Manion, Minister of Railways, to enquire into the Peace River outlet. "It will take many times the present traffic to justify another railway outlet," says the report, which was tabled in the House of Commons.

War History In School Books

Geneva, Switzerland.—At a session of the world disarmament conference, Baron Yrjo-Koskunen, Finland's Minister of Foreign Affairs, urged demilitarization of frontiers, and Foreign Minister Ghika, of Rumania, warmly supported the French plan to arm the League of Nations. He also suggested revision of school books to eliminate incitement to war.

Britain Sends Warning

Note Sent To China Over Death Of British Sailors

London, Eng.—The British Government has warned China that she or Japan will be held strictly accountable for any further loss in life by British nationals living in the Shanghai area. It was learned here.

Sir Miles W. Lamson, Minister to China, was instructed to request that the Chinese military avoid such incidents as the killing of two British sailors by shelling. No further action in that connection is contemplated, but it is assumed the families of the two men will be paid indemnities.

Lord Ponsonby, Labor leader in the House of Lords, accused the government of a "very serious error in judgment" by not supporting the United States in her note to Japan involving the Nine-Power Pacific treaty and the Kellogg-Briand peace pact.

MAD TRAPPER IS KILLED BY POLICE POSSE

Aklavik, N.W.T.—Albert Johnson finally came to the end of his bizarre trail. The wild man of the Arctic, plugging along in Canada's red-coated Royal Canadian Mounted Police won out.

Battling cold, hunger, blizzards and overwhelming odds, the eccentric trapper defied the police for eight solid weeks, now running through the wastes of the Arctic, now standing at bay and shooting down his pursuers if they came within range of his deadly rifle.

When his fate overtook him, Johnson was perpetrating one of the foxy, trail-muddling tricks with which he has managed to keep out of range of the police and trapper pursuers. He was doubling back on his trail. This time, however, his pursuers were too close.

He was seen by Staff Sergeant E. P. Hersey, and a trapper named Noel Verville, plugging along in advance of the main posse. Hunter and hunt at once prepared for a gun battle. Hersey and Verville jerked their rifles from their toboggans.

The wild man drew first blood. As Hersey knelt to take aim, a bullet from Johnson's rifle struck him in the knee, glanced up through his thigh and another entered his chest. Verville continued firing.

Only a few shots had been exchanged when the main police party arrived. Johnson's rifle was spotted on the ground, and the desperado went down under a hail of lead from half a dozen rifles.

While the battle raged on the ground, Pilot W. R. "Wop" May circled overhead in his plane. He had bombs ready to drop on the trapper but could not use them as the posse was too close.

As soon as Johnson was killed, May landed, picked up the wounded Hersey and flew back to Aklavik.

In all the long years of police work in Canada's Arctic no other man was so tough a customer as Johnson. The police casualty list now stands at one dead, two wounded. Every policeman in the district, members of the Royal Canadian Signals Corps who operated the radio station here, trappers and Indians were pressed into service in the chase. They gave their services gladly, knowing the country was safe for no man while Johnson was still at large.

The straight-shooting hermit carries with him to his death the secret of his strange behaviour. Since he first appeared in the Rat River country not far from where the mighty Mackenzie River empties its waters into the frozen mass of the Arctic Ocean he has shunned all human contact.

Making his home in a little cabin on the side of a hill, Johnson started trapping. As men passed by on the lonely Arctic trails they occasionally called on him, for the Arctic wanderer likes to see a fellow-man once in a while. But Johnson received them coolly. He slammed his door in their faces, and seemed to hate the sight of other men. A sturdy-built man of medium height, the hermit appeared to be about 40 years of age. He spoke with a slight Scandinavian accent, and always appeared well-supplied with money for the purchase of ammunition and supplies.

The most that he ever told anyone about himself was that he had walked into the country from the Yukon.

Thus he lived his solitary life. For in the Arctic men mind their own business and when they learned Johnson's desire to be alone they respected it.

GERMANY CALLS FOR FURTHER DISARMAMENT

Geneva, Switzerland.—Germany called on the nations at the world disarmament conference to draft a "Magna Charta of armaments and security," and to reduce their implements of war to her own level.

Count Rudolf Nadjoly, German ambassador to Turkey, laid down a set of seven proposals and challenged his hearers with the statement that "Germany is already disarmed and German disarmament must be considered indicative of the direction the disarmament of all other members of the league must follow."

The German spokesman said his proposals were based on the principle that "in the future there can only be one system of disarmament equally applicable to all countries," and that Germany would be unable to accept any other agreement.

"It would have been very simple for Germany to have proposed the application of the provisions of the Versailles Treaty regarding Germany to general disarmament," he continued, "but she prefers a practical construction which should have more chance of success."

French reaction to the German suggestions was expressed in the words: "They are nothing new and nothing not already advanced by Germany during preliminary disarmament talks."

Veregin Granted Bail

Doukhobor Leader Has Been Charged With Threatening Witnesses

Yorlton, Sask.—Peter P. Veregin, leader of the 20th Doukhobors in Canada, appeared in R.C.M.P. court before Magistrate Alex. McDonald for preliminary hearing on a charge of attempting to dissuade witnesses by threats.

Magistrate McDonald ruled there was sufficient evidence to send the accused to a higher court for trial. P. C. Wilson, K.C., acting for the Crown, asked that the prisoner be committed. J. A. M. Patrick, K.C., defense counsel, asked that the accused be granted bail.

After a two-hour deliberation Magistrate McDonald granted bail of \$15,000, which was supplied immediately.

More than 400 Doukhobors from all parts of the world were assembled in Yorlton for the hearing and there was wild excitement among them when they learned that their leader would not be sent to prison for a time at least. Previous to the hearing, a telegram was received from three independent Doukhobors at Thuna B.C., recommending the character of Peter Veregin and expressing faith and confidence in their leader. The rather lengthy telegram concluded with "All for one and one for all."

A Peculiar Situation

U.S. Farmers Rushing Funds Across the Line To Deposit In Canadian Banks

Halifax, N.S.—United States farmers along the border have not only been depositing their surplus cash in Canadian banks and withdrawing from their home-town institutions to make Canadian deposits, but are actually mortgaging property and rushing the proceeds across the line, according to the February 17 issue of "The Business Week," New York Commercial Journal.

"Yankies in the upper tiers of Maine, Vermont and New Hampshire," says the publication, "are taking their money from banks to deposit in Dominion institutions at a rate of \$118 to \$120. Here in the true Yankee country people see an opportunity for profitable trade—a thing always close to the Yankee heart. When the Canadian dollar recovers, as they feel sure it will—they can recall the money and cash their profit. Meanwhile deposits in Canada are drawing interest in the larger face value."

Continue Low Fares

Montreal, Que.—Low week-end round trip fares, which have been offered by the Canadian National, Canadian Pacific and other railway lines in the Dominion since last summer, will continue in force after February 29, the date originally set for their discontinuance, the Canadian Passenger Association announced.

Canada's Oldest Indian Dead

Nanaimo, B.C.—Nanosee Bosh, after whom Nanosee Bay was named 90 years ago, who was reputed to be the oldest Indian in Canada—his estimated age being 105 years—is dead at his home on the shores of Nanosee Bay.

ANOTHER GAS TAX RAID

In their scramble for more revenue, the governments of the western provinces are believed to be preparing to increase the gasoline tax.

Such a raid upon the motorists of this part of the dominion should be opposed to the utmost. Too long have they stood by, confident that governments would ultimately see the injustice of making the motorists pay and pay, without getting a fair return through these taxes, being "camouflaged" for highway purposes.

It is high time that governments realized the fact that higher gasoline taxes mean less money from that source. This tax has been boosted whenever it was thought safe to take more money from the motorists. The sky has been reached, so to speak, and any further raising of the levy means that the yield will be diminished.

Take this case. The state of Oklahoma increased its gasoline tax from four to five cents last year and its revenue dropped by \$768,000. Now it has reverted to the four cent tax.

This fact also has been demonstrated. When the tax is reduced, there is a greater yield. The state of Pennsylvania reduced its tax from four to three cents a gallon and in the month of May, 1931, it collected \$1,200,000 more than it did in the same month of the year previous under the higher rate.

Hundreds of thousands of dollars are being lost in revenue to governments today, just because the taxes on gasoline are too high, with the result that the "gas bootlegger" has come into the picture. Any raising of the levy will give just that much more incentive to the tax evader to extend his operations.

The taxes levied upon motorists are proving a burden. In 1930 the taxes upon motor vehicles in the United States amounted to 18.3 per cent of their total valuation. It is safe to say that the levies in the dominion also have hit a high percentage.

It has been figured that the existing five cent tax forms a large part of the cost of the gas. On a basic retail price of 23 cents a gallon, the five cent tax would be 21.8 per cent of the cost of the gas.

No wonder that there is a protest gathering force in all parts of the west, to fight a gas tax boost. That will be a ringing protest, for there is no justice or fairness in increasing the levy when it is not being devoted to road purposes solely.—Western Motorist.

AN EXPERIMENT IN FINANCING

An interesting experiment in municipal financing is being tried by the town of Cardston, according to press reports. The town council are issuing \$10,000 of treasury script—a local currency which will be accepted in payment of municipal taxes and light and water services. The plan is that municipal employees will receive 40 per cent of their wages in ordinary legal tender, and the remainder in the local currency, with a view to its being used for local trading.

A traffic cop at a busy corner saw an old lady beckon to him one afternoon. He held up a dozen autos, a truck and two taxis to get to her side. "What is it, lady?" he asked, rather impatiently. The old lady smiled and put her hand on his arm. "Officer," she said in a soft voice, "I just wanted to tell you that your number is the number of my favorite hymn."

ICE OF GOOD QUALITY

Probably the finest quality of ice ever stored here by the C.P.R. is now being brought from Crown's Nest Lake and being put up for this season's use. The huge blocks are about 30 inches in thickness, or about ten inches thicker than that stored last year. This is accounted for by the extreme cold weather, when the freezing came quickly and without any spells of snowfall between freezing periods. The ice is as clear as crystal and each block weighs many hundred pounds.

This work gives employment to quite a number of men at Crown's Nest Lake doing the cutting and loading, and again at this end unloading the cars and storing the ice in the large warehouse. It requires about sixty-five car-loads of ice to take care of the wants of the Cranbrook division.—Cranbrook Courier.

LADY MAYOR'S DANDER UP

Broken Arrow, Oklahoma, Feb. 20.—Mrs. Phenix Lou Ownby, Broken Arrow mayor, has posted the following ukase: "Some that owe us give big parties and have cars lined up for half a block in front of their homes, but can't or won't pay their water bills. You'd better pay or you won't be able to wash your dishes after the next parties you give. I mean business. Some people seem to think the world owes them something. Maybe it does, but they won't get it from this administration."

HOME OBSERVATIONS BY F. J. S.

There have been an almost endless variety of suggestions to relieve the employment situation, but the most novel we have bumped into is that of a man near Regina who suggests a chemist which he claims would kill two birds with one stone—supply employment to the jobless and bring the prairies warm, moisture-laden winds. It is a bold and striking scheme, and the wonder is that no one ever thought of it before. His plan is to cut the Rocky Mountains down to the level of the prairies, so that the balmy breezes of the Pacific could come across the country unimpeded.

Sounds foolish, doesn't it? But wait. Let me explain:

"I suppose somebody will say I'm cuckoo, but if any of you \$5000 a year inside tree planters, rain-makers, etc., wish to start a race, I'll bet that I can have the Rockies levelled and still have time for lunch before they get your trees to thrive and keep the winds from coming across the prairies."

To this the Calgary Albertan concurs: "Well, why not? The Rockies never did anyone any particular good. They are just great bunks of rocks and earth, and though they look rather nice the first time you go through them, the novelty soon wears off. Away with them! Think of the employment possibilities! One could have an army of men taking the Rockies down and another army dig out holes to put them in. A third army might be kept busy digging holes holes in which to bury the earth thrown up by the diggers of the holes in which the Rockies were buried. And so on."

Unlimited possibilities, we admit, but would Cranbrook and Fort Steele and other points stand idly by while these towering peaks were being removed? Never! Their grandeur is one of our biggest assets in attracting tourists, and besides it would spell ruin to that favorite song of ours—"When It's Springtime in the Rockies"—Cranbrook Courier.

A minister travelling in a railway carriage was annoyed by the stentorian of a drunken fellow who insisted upon talking to him while he was reading his paper. At last he could stand no longer and said: "You'll excuse me, sir, but I don't wish you to speak to me, you're drunk." "I'm drunk, am I?" was the reply. "I may be, but you're far more drunk than I am, for you're not your collar on with the back to the front."

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, R.D., Pastor.

Serve the Church that the Church May Serve You.

Services Sunday, February 28th, Missionary Sunday, the pastor in charge.

11 a.m.—JUNIOR SCHOOL. Classes as usual.

2 p.m.—SENIOR SCHOOL. Classes as usual. "Wayside Views of Central India."

7:30 p.m.—PUBLIC WORSHIP. Do not forget our 15 minute song service led by the junior choir and the orchestra. A minute story, "Never give up." The minister's theme will be "Poplar, Buds and Pussy Willows." This is the second sermon in a short series of "Timely Typics."

ANNOUNCEMENTS—Do not forget the entertainment in the church on Friday this week. The girls' groups have planned a pleasant evening. Come and enjoy yourself. Laugh with the girls and boys and at the same time help us to do our share toward the cost of the Religious Council of Alberta. Refreshments served. Admission 25c.

The United Church Finance Campaign will be held during the week following, March 13th. Are you doing your full share toward the cost of the religious education of the youth of our town. The world's greatest task is the religious education of the youth of our generation. It is a task in which the church and the home must work together as full partners. Blairmore United Church has always led in this work and now with its new school rooms is planning to do still more for the youth of our town.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partridge, B.A., Rector

Next Sunday, February 28th, the 3rd in Lent, the services will be as follows:

10 a.m. Sunday School in the hall. 7 p.m. Evensong and sermon. The Lord Bishop of Calgary, will be present at the evening service and will be the special preacher.

There will be the usual Lenten services in the church every Wednesday as follows:

4:15 p.m. Children's service. 7:30 p.m. Evensong and address.

THE STRANGER COMES HOME

Who's that Bozo, Mother dear? Gee! He knows us, ain't it queer? Hush my own, don't talk so wild. He's your father, dearest child. He's my father? No such thing. The ole man died, way last spring. No such luck, you silly dolt. He just married a golfing club.

From early spring to late in fall. He chomps and batters the poor wee ball.

The start was splendid, the ending sad.

He is sour and crabby and peevish and mad.

So get his slipper, be nice to him dear.

It'll get over it by the new year. Kiss him—don't you hate you child. A't them G.I.'s Guys look wild.

It was the first big snowstorm of the year and the teacher felt it her duty to warn her pupils before she dismissed them. "Boys and girls should be very careful to avoid gobs at this time of year," she began solemnly. "I had a darling little pupil only seven years old. One day he went out in the snow with his head and caught cold. Pinned in and in three days he was dead. The schoolroom was quiet. Then a youngster in the back row asked: 'Where's his sled?'"

Local and General Items

A barber isn't necessarily a pugilist because he occasionally gives a customer an upercut.

Rev. Paul C. Wade, of Wataskivich, has been chosen to succeed Ven. Archbishop Swanson as rector of St. Augustin's church at Lethbridge.

If the boarding house in which you are staying had food that tastes like sawdust, be nochealant—it's fine board you're getting.

Reports from Waterton Lakes state that snow drifts touch the telephone wires. The same phenomena may be seen along the railway east of Cowley.

There's no telling how long Methusalem might have lived if he had had his appendix, teeth and tonsils out, used the right brand of tooth paste and smoked coughless cigarettes.

The wife of D. F. W. Clark, well known Lethbridge traveler on this territory, underwent an operation at St. Michael's hospital on Thursday morning last.

Women's organizations in Canada are fighting for limitation of armaments. Only a few years ago they were fighting against limitations of ladies' dresses.

British Columbia fish are petitioning the government against the most recent piece of legislation, making it unlawful for them to bite a hook till they attain a weight of two pounds.

Mrs. Margaret Veregin, aged sixty years, of Makepeace, Alberta, whose husband is a first cousin of Peter Veregin, leader of the Doukhobor sect in Canada, died recently in a Calgary hospital.

An English magistrate has declared that there is no swearing in the Welsh language. That's certainly a relief, for from what we've seen of the words, they all seem like swear words to us—Es.

As a story in brief, this is the best we have seen in a long time: "For Sale—top hat, white spats, field glasses, six packs of playing cards, billiard cue and set of golf clubs; or would exchange for a baby carriage."

World Scout census figures at the end of 1931 as received by the International Scout Bureau show a total of 2,022,247 Scouts and leaders. This represents a year's increase of 163,432.

The late James A. Huntley, who died suddenly at Saskatoon, was a native of Stewiacke, Nova Scotia, and is survived by one brother, Matthew, in Massachusetts, and two sisters, Mrs. Charles McHullen at St. John, N.B., and Mrs. J. J. McLeod at Stewiacke.

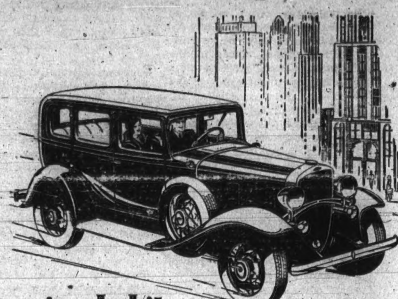

Shooting galleries for women only are being established in Paris, France. The galleries will be equipped with the silhouettes of men, standing, sitting, lying down and in every conceivable pose, both relaxed and tense. Vital spots are to be marked with the letter X for sure aim.

A few weeks ago a man was found in the kitchen of a New York apartment, eating an apple. He stated hunger drove him to it. He was sentenced to 15 years for committing a burglary. Comparing this offence and its punishment with others where men cold-bloodedly rob their fellow men and women of large sums of money, sometimes the savings of a lifetime, and the victims have no redress, it makes one wonder if, besides blinding justice, someone had befuddled her brain.

The statement in a Budapest despatch to a Toronto paper that instances will prevent the holding in Hungary of the projected 1933 world gathering of Boy Scouts has been specifically denied by Dr. Veli, Hungarian International Scout Secretary. Conditions are not as bad as painted at the jambooree will be held as planned, Dr. Veli declares.

That there is too much spoon-feeding today, and that Scouting "helps

Beating them all on the "Get-Away"

is a habit Chevrolet drivers soon acquire

IT'S one of the biggest thrills of modern motoring to get behind the wheel of the new Chevrolet and actually know the advantages of a 60-horsepower, six-cylinder motor, silent Synco-Mesh shifting, free-wheeling and down-draft carburetor.

Acceleration! When the light flashes green step on the gas—then glide swiftly away ahead of the traffic! The new Chevrolet gives you matchless "pick-up"—like power that responds to every need. Keep your foot down; watch the speedometer spin up to forty—or forty-five—or more! Then slip the lever into high without even a click. That's Synco-Mesh for you. And you can shift back to second just as easily. If you're "in" free-wheeling you needn't touch the clutch! Once you try the new Chevrolet Six, you'll never be satisfied to drive anything less!

Ask about the GMAC, General Motors' own deferred payment plan. The brand includes General Motors Owner Service Policy assures lasting satisfaction.

boys to fend for themselves," was given as one of his reasons for supporting the Scout movement by the Lord Mayor of Liverpool, Mr. Joan H. Inskip. "Scouting taught boys to be independent, and to find their places in life, instead of drifting," he declared.

Cop: "Hey there, don't jam up traffic! Why don't you use your noodle?" Sweet Young Thing: "I didn't know the car had one."

During 1931 a total of 4,566 Canadian Boy Scouts passed proficiency badge personal health tests, and tests qualifying for public health and safety service. Of the total 1,019 became ambulance men (advanced first aiders), 517 missionaries (junior nurses), 256 became public health men, 326 public safety men and 218 qualified as rescuers (from drowning). 474 passed the healthman tests, 510 qualified as athletes, 268 as masters-at-arms, and 376 as swimmers.

HILLCREST HAPPENINGS

An enjoyable evening was passed at the Knight of Pythias' social last Wednesday night. During the first part of the evening, the guests indulged in playing whist, honors being awarded to: Mrs. R. Portier, ladies' first; Miss L. Price, second; Adam Polas, gents' first; D. J. Davies, second. The mystery box was won by R. Turner. Supper was served and dancing continued till the early hours of the morning.

The Welsh Society held a social evening at the Catholic hall on Monday night. Whist was played, and, after a delightful cold supper, dancing concluded the evening, which was enjoyed by all.

In the hockey game between Hillcrest and Bellevue school boys at Bellevue last Thursday, Hillcrest lost a bad break. After monopolizing three quarters of the play, several lucky breakaways by Bellevue enabled them to win 6-3.

Mrs. G. E. Cruickshank returned home on Tuesday, after an enjoyable stay at the capital city with Mr. Cruickshank.

Mrs. Walter Rose entertained her friends at a whist party at her home on Wednesday evening. The prizes were awarded to: Mrs. M. B. Walker, first; Mrs. E. Fisher, second; Mrs. J. Penn and Mrs. G. Fry, consolations. A pleasant time was had over the tea cups.

Mrs. R. Sillocks returned home last week from a visit to Eastern Canada.

After the Sunday evening service at the United church, the annual congregational meeting was held. Rev. John Wood officiated at the meeting and service.

Mrs. B. Thornton was hostess at a whist drive at her home on Friday night. Prizes were won by: Mrs. H. Stobbs, first; Mrs. R. Stueburg, second; Miss E. Frommenger, consolation.

BELLEVUE HAPPENINGS

The death of Mrs. J. Coates, senior, occurred at an early hour on Friday last at the Reinhorn hospital here. Mrs. Coates leaves to mourn her loss a husband, three sons—John, Ernest and Norman, and a daughter, Edith, who at present is in the States, besides a host of friends in Bellevue. Funeral services took place at the United church on Sunday last, Rev. J. Wood officiating. Floral tributes were many and beautiful. The remains were laid to rest in the Hillcrest cemetery.

A very pleasant evening was spent in the I.O.O.F. hall on Friday, when the First Aid class held their annual banquet. At 6:30 the guests, and members sat to a sumptuous spread, after singing "O Canada." Fred Padgett acted as chairman, and his co-workers, B. Milne, assisted when Mr. Padgett left to get ready for the play.

The chairman gave a brief address, before calling upon the following: Messrs. M. H. Congdon, M. Blake, Ed. Boyle, E. C. Costick, Dr. Reinhorn, J. J. McIntyre, B. Milne, Rev. J. Wood and J. Radford, senior, for remarks. Guests included the above speakers, also Idris Evans (Blaimore), S. Berry, Rev. Father Donovan and Mrs. N. McDonald. A very pleasing programme was arranged for the banquet by Mr. Albert Christie, who also led the First Aid orchestra in its first appearance. The programme was as follows: Community songs, violin solo by E. Wood, vocal solo, with chorus, by Aubrey Barr; piano solo by Earl McDonald, recitation by Joe Morris. At this point in the programme, the chairman, on behalf of the class, presented the secretary, Joe Morris, with a vest-pocket kodak for his services for the last two years. Mr. Morris, on behalf of the class, presented the instructors, B. Milne and F. Padgett, with razors. Then followed the following: vocal quartette, community songs, saxophone solo by Bill Goodwin, violin solo by Dennis McLafferty, piano solo by Albert Christie and Frank Lamey; a comic play, "Breach of Promise," orchestra selections, choruses and vocal solos, as well as renditions on accordion and mouth organ.

W. R. Warn is confined to his home through illness. At a special meeting held in Cole's theatre, the Bellevue miners voted in favor of striking in sympathy with the miners of Blaimore. A pleasant evening was spent at the home of Miss Helen Emmerson, when the sewing circle gathered for their weekly meeting. Mrs. H. Shewels and Miss Beatrice Radford were joint hostesses at a bridge party on Monday night at the home of the former. Bridge honors were won by Mrs. D. McDonald and Miss G. Chiaravato, after which a dainty luncheon was served. Misses Annie and Grace Penman entertained a number of their friends at bridge on Tuesday evening. Bridge honors were won by Mrs. E. McDonald, first; Mrs. E. E. Cranston, second; and Mrs. N. McDonald, consolation.

COWLEY HAPPENINGS

Several Cowley enthusiasts attended the whist drive held in Lundbreck on Friday night, in aid of the Burns school supply fund for the children of that district, whose school house was destroyed by fire several weeks ago. Prizes were won by: Miss Phyllis Porter, ladies' first; Miss Madden, second; Wallace Eddy, gents' first, and P. Patterson, second.

Mrs. George Porter spent the week end in Macleod, visiting her daughter, Mrs. Hamilton.

A strong chinook wind is fast melting the snow drifts in and around the town till now there is water, water and water everywhere.

The annual meeting of the ratepayers of the Municipal District of Livingstone No. 70 was held here Wednesday, with Retiring Officer, George Mowat presiding. Nominations for councillors were received for three divisions, as follows: Division 3—A. McLean, F. R. Baxter; Division 4—Martin Evans, R. L. Staunton; Division 5—J. S. Hewitt, S. Grayford. The tone of the meeting was rather critical, which is usual in times of stress, though the affairs of the municipality are much better than in many other districts in the province. Indigent relief was thoroughly reviewed, and the trend of opinion was toward greater economy on the part of the council for the current year. Elections will be held in the different divisions on February 27th.

Saskatchewan's new income tax will be levied on incomes of \$750 per year and up for single persons, and \$1500 and up for married persons. Gasoline tax will be increased one cent a gallon to six cents. A corporation tax provides a graduated scale of payments by banks up to a maximum of \$3,000, with a minimum of \$200 for all branches, other than

city and town. Other new taxes include a half mill increase in the public revenue tax and five dollars in the motor license fee.

The Ontario "Reds," Communists, lost in their appeal in the Ontario supreme court and must serve their time, running from two to five years, in jail. The men are: Tim Buck, Tom Even, John Boychuk, Amos T. Hill, Malcolm Bruce, Samuel Cohen, Matthew Popovich and Thomas Cacic. All except Bruce, a native of Prince Edward Island, will be deported at the expiration of their sentences. The ruling of the court was that the Communist Party of Canada is an unlawful association. Why not deport Bruce to Prince Edward Island?

California has so many wonders, we who live here permit many of them to pass without notice. Here is one, however, worthy of mention. A rancher, one Homer Walker by name, according to news reports, had an almond tree some seven years ago, on which he grafted peaches, apricots, nectarines, plums and prunes. This past summer these grafts, having grown to maturity, bore all five varieties of fruit mentioned, and from the same trunk. Only almonds were lacking. A tree like that would be handy to have in any back yard when the housewife wants to concoct a dish of fruit salad.

WORLD HAPPENINGS BRIEFLY TOLD

It would cost \$2,193,000 to construct the Mafeking cut-off in Manitoba to the Hudson Bay Railway, the House of Commons was informed.

More than \$10,000 has been raised by Calgary Chinese to aid their brethren in China defend the nation against the Japanese.

Immigration from Canada during 1931 dropped 77.1 per cent. compared to the previous year. A total of 31,877 Canadians were admitted.

Ferdinand Edouard Buisson, 91, long a noted worker against war and holder of the Nobel prize, died a short time ago at Beauvais, France.

The last of three royal air force aeroplanes, forced down in a blizzard in the Syrian desert, was found north of India, with all the occupants safe.

There are more than 190 candidates in line for the 10 travelling research fellowships to be awarded this spring by the Royal Society of Canada.

The shipping world understands a situation has developed favoring a profitable deal with Canada whereby Great Britain would exchange British coal for Canadian wood.

Mayor Davidson has informed the Royal Canadian Mounted Police force will not police the City of Calgary. This will be up to the city police force.

An autographed letter written by Lord Nelson to the lords of the admiralty five weeks before his death when auctioned recently brought about \$100.

Dr. Hugo Eckener announces the Graf Zeppelin would make four trips to South America, during March, April and May. Six other trips, as yet undesignated as to termini, are planned.

Demolish Famous Structure

Waterloo Bridge, Spanning Thames in London, England, To Be Replaced

Old Waterloo Bridge, still one of the finest structures of its kind in Europe, is doomed to demolition.

The London County Council has voted to demolish the bridge and erect a new one nearby. The decision marked the end of seven years of controversy, complicated by the fact that expert opinion was divided on the feasibility of its preservation.

For more than a century Waterloo bridge has gracefully spanned the Thames. But it is apparent even to casual observers that it is very slowly sinking. It is the oldest bridge now standing within London, and is the work of John Rennie. A massive stone structure of nine arches, carrying a level roadway, Waterloo Bridge was opened in 1817, and its capital cost was \$522,000, more than that of any other important London Bridge.

Sir Gilbert Scott, architect of the great Anglican cathedral at Liverpool, has been asked to design a new bridge to carry six lines of vehicular traffic, and to cost £1,295,000. The ministry of transport will assist the county council to the extent of contributing 60 per cent. of the cost.

Rickets Cure Announced

A new cure for rickets was announced recently by Professor John W. M. Dunker, of the Department of Biology and Public Health at Massachusetts Institute of Technology.

Investigate Radio Broadcasting

Parliamentary Committee To Be Established For This Purpose

Equipped with full powers, a parliamentary committee will be established to investigate the Canadian radio broadcasting industry, Premier R. B. Bennett announced to the House of Commons. "It will advise and recommend a complete technical scheme of radio broadcasting for Canada so designed as to ensure from Canadian sources as complete and satisfactory a service as the present development of radio science will permit," and will "investigate and report on the most satisfactory agency for carrying out the scheme."

Advocates of public and private ownership will be afforded opportunity of presenting their views before the committee, the premier said. Review will be made of the report of the Aird Commission which investigated the radio industry in 1929, and among other things, advocated nationalization of broadcasting.

Members of the parliamentary committee will be selected from among the various parties in the House, the actual selections being left to the whips. A similar committee was established during the 1930 session, but it held no meetings because of the sudden prorogation of parliament on the eve of the general election.

By Annette

FRIEND HUSBAND IS ALWAYS ATTRACTED TO HOME FRESH WITH TRIMS OF FRESH RUFFLING

And this one is quite a darling. It wraps the figure, and hugs the waistline. A soft narrow sash slips through a bound opening at the right side, leaving the front free in panel effect, which flatters the height of the wearer.

The ruffling may be bought already to sew on, or you like. However, the pattern provides for same.

A novelty cotton with woollen aspect in orange-red shade with white pique trim made the original. It opens out flat so is extremely easy to launder.

Style No. 943 is designed for sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards of 35-inch material with 1 yard of 35-inch contrasting.

Tub silks, rayon novelties and cotton corduroy are lovely to fashion it. Spring is the most important, the most colorful season in fashions. All the more reason why you should have an authentic guide, such as our new Fashion Magazine, to show you the way in design, colors, etc. Of course, there are styles for afternoons, for stouts, for home wear, lingerie, children, etc.

Price of book 15 cents. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

ACTS TWO WAYS AT ONCE

Extend Library Privileges

Public Library Commission For Saskatchewan May Be Established

Establishment of a public library commission for Saskatchewan, with the co-operation of the Carnegie Institute, is a development which may be expected in the province within the next few months.

Recently, representatives of the Carnegie Institute visited Regina, and met members of the provincial government, and it was learned that consideration is now being given to a plan which would bring to the residents of all the rural sections a book-lending system not possible at present.

The plan, it is learned, provides for a substantial financial grant from the Carnegie Institute to the province, controlled by a commission in charge of the library extension work. This commission would work in co-operation with the open-shelf library and travelling library branches of the provincial public service and the system would permit the distribution of books into every rural section of the province.

Recipes For This Week

(By Betty Barclay)

BUTTERSCOTCH MERINGUE PIE

- 5 tablespoons special cake flour
- sifted
- 1 cup light brown sugar.
- 1 1/2 cups milk.
- 3 tablespoons butter.
- 2 egg yolks, well beaten.
- 1 teaspoon vanilla.
- 1 baked 9-inch pie shell.
- 4 tablespoons sugar.
- 1/2 teaspoon salt.
- 4 egg whites, stiffly beaten.

Combine flour, brown sugar, and butter and blend. Add milk and cook in double boiler until thickened, stirring constantly. Pour small amount of mixture over egg yolks, stirring vigorously. Return to double boiler and cook 10 minutes longer. Add vanilla. Cool. Pour into pie shell. Fold sugar and salt into egg whites and pile lightly on filling. Bake in slow oven (300 degrees Fahrenheit) 12 minutes, or until delicate brown.

CHOCOLATE MACAROONS

- 1 cup sugar.
- 1/4 teaspoon salt.
- 2 egg whites, stiffly beaten.
- 1 can coconut, Southern style.
- 1 1/2 squares unsweetened chocolate, melted.
- 1/2 teaspoon vanilla.

Combine sugar and salt. Fold gradually into egg whites. Fold in coconut, chocolate, and vanilla. Drop from teaspoon on greased baking sheet. Bake in slow oven (275 degrees Fahrenheit) 30 minutes. Makes 2 dozen macaroons.

People Have Been Kind

Desire To Help Very Pronounced During Hard Times

Nothing has been so heartening and helpful throughout this period of depression which is now beginning to lighten, especially in these later stages as a new spirit which seems to be abroad in the land. Difficult to define in words, it is felt by all. Partly described by such terms as co-operation, "kindness," "understanding," it includes something more—a quality of thought and action for the common welfare which has never been so marked in previous visitations of hard times.

Felt Terribly Nervous

Fagged out... always melancholy and blue. She should take Lydia E. Pinkham's Vegetable Compound. Its tonic action builds up the system. Try it.

SUNDAY SCHOOL LESSON

FEBRUARY 28

JESUS RAISES LAZARUS FROM THE DEAD

Golden Text: "I am the resurrection and the life: he that believeth on Me, though he die, yet shall he live: For as the Father raiseth up the dead, and liveth; even so the Father also raiseth up them that believe on Me." Lesson: John 11:1 to 12:11. Devotional Reading: 1 Corinthians 15:50-58.

Explanations and Comments

Jesus Talks With His Disciples About Going To Bethany, verses 7-11. "Let us go into Judea again," said Jesus to His disciples, but they answered him with Him because of the danger, for the Jews there had just sought to stone Him. Jesus answered them that His life was safe as long as God had work for Him to do, and added that He must go to Bethany. Jesus' disciples took His words literally; if Lazarus was sleeping, he would recover. Then Jesus told them plainly that Lazarus was dead; for the sake of their faith, He said, He was glad he had not been there. Now they must go with Him. And despondent Thomas said, "Lord, I believe, and yet I believe that thou shalt not give the Lord God will give thee." "Thou shalt see Me again," returned Jesus. "Yes, in the resurrection at the last day," Lazarus answered, but he found a little comfort in that hope of the far-distant future. I am the Resurrection and the Life," solemnly Jesus affirmed, "those who die believing on Me shall live through My life-giving power; and over the eternal life within the living who believe on Me, death shall have no dominion. Believest thou this?" "Thou art the Christ, the Son of God," answered Martha; His power she would not limit.

The Meeting Of Jesus and Mary, verses 28-32—Martha hurried back to Bethany to summon Mary with her. "The Teacher is here, and calleth thee." When Mary started up quickly to meet Jesus, her friends (some of them were from Jerusalem), thought that she was going to the tomb of Lazarus to weep, and they followed her. On reaching Jesus she fell at His feet and spoke the same words that Martha had spoken, the thought that had been in their minds constantly since their brother's death, "Lord, if Thou hadst been here."

The Sorrow Of Jesus, verses 33-37. "Jesus was troubled by Mary's weeping and that of the Jews who had come with her. 'Where have ye laid him?' He questioned. 'Come and see,' they returned. Jesus wept. His weeping was an expression of His divine sympathy which draws all sorrowing hearts to Him.

Jesus Restores Lazarus To Life, verses 38-44—The tomb was a cave with a stone before the opening. Jesus bade the stone be removed, but Martha objected, reminding Jesus that Lazarus had been dead four days and by this time the body was decaying. "Jesus was now face to face with the impossible, she taught; death and corruption had made His healing power of no avail. 'Said I not unto thee,' exclaimed Jesus, 'that if thou believest, thou shalt see the glory of God?' The stone was taken away. And Jesus lifted up His eyes and said 'Father, I thank Thee that Thou hearest Me. His prayer for power had been offered, perhaps when first He heard of Lazarus' sickness, and now He is sure that God has answered that prayer, sure that He can bring Lazarus back to life, and to advance the work of doing this He thanks His Heavenly Father for hearing Him. 'I knew that Thou hearest Me always,' continued Jesus, 'but because of the multitude that standeth around I said it, that they may believe that Thou didst send Me.' Then with a loud voice Jesus cried, 'Lazarus, come forth.' And Lazarus came forth.

Completion Of Old Experiment Is Near

Scientists Working On Correct Measurement Of Speed Of Light

Experiments begun by scientists more than 300 years ago to ascertain the speed of light seem near completion at Pasadena, California. The speed of light is the yardstick of science. Other yardsticks may warp or be shortened or lengthened by temperature changes, but the speed of light is recognized as constant.

Astronomers measure the distance from the earth to stars and planets by it, using "light years," the distance light would travel in a year. But they have never been able accurately to measure a light year to miles.

Galileo Galilei, Italian scientist, made one of the first estimates of light's speed by flashing lantern light back and forth across hillsides. Employing much the same principles, Dr. Albert A. Michelson, United States physicist, used mirrors to flash light from mountain top to mountain top near Pasadena in 1927 and found it travelled 186,284 miles per second. This value was accepted by scientists, but Dr. Michelson felt a still more accurate measurement could be made.

He had a mile long tube of corrugated steel 36 inches in diameter built on the Irvine ranch near Santa Ana, California. It was sealed, reduced to a near vacuum and light from an arc lamp flashed back and forth through it by mirrors. But Dr. Michelson, who was 79 years old, died last May before the first five of his observations were completed.

Dr. F. G. Pease, of Mount Wilson Observatory, and Fred Pearson, of the University of Chicago, who had aided him, will resume the observations and hope to complete them within a comparatively short time.

Canada's Wheat Exports

Summary Of Movement Of Grains To United Kingdom Given In Report

Wheat exported during the month of January totalled 9,472,346 bushels, valued at \$5,517,082, compared with 9,608,862 in January, 1931, valued at \$6,430,882, according to a report issued by the Dominion Bureau of Statistics. The amount sent to the United Kingdom was 5,289,568 bushels compared with 2,818,988 bushels in the corresponding month of last year.

In the six months ending January, 1932 the total wheat export was 104,490,432 bushels, compared with 138,297,729 in the same period of 1931.

Wheat flour export in January totalled 331,808 barrels valued at \$1,171,870, compared with 382,256 barrels at \$1,558,509 in January, 1931. The six months export was 2,896,805 barrels at \$9,970,107, compared with 2,961,094 at \$17,142,254 in the same period a year ago.

A comparison of the smoke in the air of London and New York has been made, and London smoke particles were found to be smaller in size.

Captain Kidd, the pirate, was sent out from England to capture pirates and turned pirate himself.

An Interesting Discovery

Petrified Apples Have Been Found By Farmer In Alberta

While fossilized palm leaves, figs and fig leaves have been uncovered in southern Alberta, as proof that about 70,000,000 years ago this part of the west was a tropical land where the dinosaurs roamed, yet it was not until last month that petrified apples have been unearthed.

This discovery was made by a farmer digging a well in the Olds district, who unearthed petrified apples on a petrified branch of the ancient tree. The Calgary museum has been notified of the discovery and the well has been refilled with earth to await further excavation work by experts in this branch of research.

Scientists Are Busy

Scientists of nearly a score of nations are completing arrangements for the widest investigation ever made into the scientific and meteorological mysteries of the polar regions. The second "polar year" begins August 1 next, and a group of "weather men" in Toronto are talking daily to conclude details of the great party Canada is to take in the new invasion of the top of the world.

Experiment Is Near

Scientists Working On Correct Measurement Of Speed Of Light

Experiments begun by scientists more than 300 years ago to ascertain the speed of light seem near completion at Pasadena, California. The speed of light is the yardstick of science. Other yardsticks may warp or be shortened or lengthened by temperature changes, but the speed of light is recognized as constant.

In the six months ending January, 1932 the total wheat export was 104,490,432 bushels, compared with 138,297,729 in the same period of 1931.

Wheat flour export in January totalled 331,808 barrels valued at \$1,171,870, compared with 382,256 barrels at \$1,558,509 in January, 1931. The six months export was 2,896,805 barrels at \$9,970,107, compared with 2,961,094 at \$17,142,254 in the same period a year ago.

A comparison of the smoke in the air of London and New York has been made, and London smoke particles were found to be smaller in size.

Captain Kidd, the pirate, was sent out from England to capture pirates and turned pirate himself.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

For Quick Relief from COUGHS & COLDS TAKE BUCKLEY'S MIXTURE

The very first sign of this potent, pungent, penetrative mixture gives results.

An exchange remarks: The average merchant should get out, either
AFTER business or OF business.As in previous years, a picked
group of Toronto Boy Scouts acted
as ushers at the opening of the Ontario
legislature, February 10th.The so-called "serum trial" arising
from the death of 76 infants last
summer, after the administration of
an anti-tuberculosis serum, ended re-
cently, when Professor George
Deycke, German doctor, who assumed
sole responsibility for the scientific er-
ror, was sentenced to two years in prison.One of the most pleasing announce-
ment is that stating that the author
of a certain piece of poetry is un-
known.Fire on Sunday last badly gutted
the Coronio hotel at Edmonton, as
well as the Rex Cafe and Motor Car
Supply Company's premises adjoining.Who was the gentleman that walked
up town and purchased two dozen
fresh eggs at cash and carry prices,
and then, when on the way home, fell
and not only broke the eggs, but
ruined his suit, making dry cleaning
necessary?**Extra Special Prices**

SOUTH SIDE GARAGE BLAIRMORE

Local and General ItemsAlberta wells produced 71 per cent
of the Canadian gas output in 1931.William Russel Drake, of Frank,
has been appointed commissioner for
saths.Inspector J. O. Scott, of Leth-
bridge was an interested fan at the
hockey game here last night.TEA and SALE of Home Cooking
and Aprons, auspices Pythian Sisters,
K. P. Hall, Hillcrest, Saturday, March
the 12th.Mr. and Mrs. J. H. Corbett and
daughter have taken up residence in
the house formerly occupied by H.
Griesbach, south of the C.P.R. Depot.Miss M. Chardon was in Calgary
the early part of the week, attend-
ing the Harold Samuel piano recital
at the Palliser hotel.The Gleichen Gunners were treated
recently to a turkey supper by their
vice-president. Crimes of this sort
are seldom committed in behalf of
Blairmore hockeyists.Announcement is made that at the
Coleman elections for school trustees
there were 157 spoiled ballots, and
66 for the town council. Looks like
an intelligent vote (?)In the list of flowers, Hadwell fun-
eral, contained in our last week's is-
sue, credit given West Canadian Col-
lieries should have read: "West Can-
adian Collieries' Band, Bellevue."A few days ago, a local elderly
lady, reading from a newspaper, re-
marked: "It says here in the paper
that the young girls today are aban-
doning all restrictions. The better-
man visitor replied: "Well, I'd better
not catch Mabel without hers on!"A large number went to Nanton on
Monday to see Blairmore play Nanton
to a draw in the provincial play-off.
They were disappointed in Blair-
more's showing. Either this team did
not extend itself for the game or else
it has a reputation it fails to live up
to.—Clareholm Local Press.Between two and three hundred
local mine workers refused to go to
work on Tuesday, demanding rein-
statement of a leader laid off and
more equal distribution of available
work. As a result, the local mine has
been closed down cold till an agree-
ment is reached between the local
union and the company.Following are the 1932 officers of
the Alberta Grand Lodge of the I.O.
O.F.: J. B. Allison, Granum, grand
master; E. G. McPherson, Vulcan,
deputy grand master; O. S. Martin,
Hardisty, grand warden; O. E. Tis-
dale, Calgary, grand secretary; Geo.
W. Henderson, Calgary, grand treas-
urer; J. H. Ross, Calgary, grand re-
presentative to the Sovereign Grand
Lodge, for two years; D. F. Christie,
retiring grand master, for one year.**CARD OF THANKS.**Mr. Archibald Lawrence and fam-
ily, of Hillcrest, wish to thank friends
and acquaintances for the help ex-
tended to them during Mrs. Law-
rence's illness. They especially wish
to thank Dr. Rose and nurse for their
untiring efforts, and also wish to ac-
knowledge the numerous beautiful
floral tributes.**IN MEMORIAM**In Loving Memory of darling
Eleanor Olson, who went to sleep on
February 23rd, 1930, aged 12 years,
4 months.Never shall you be forgotten,
Never shall your memory fade,
Sweet thoughts shall always linger,
Around the grave where you are laid,
And when the shadows of night are
falling,And we are all alone,
There comes a thought, dear Eleanor,
If you could just come home.
Ever remembered by Mamma,
Daddy, Bert and Cecil.Cheap customers form the printers'
most expensive possession.The plant of the Hanna Herald was
greatly damaged by fire on Saturday
night.Mr. and Mrs. Harry Gunn and lit-
tle daughter, of the North Fork, were
visitors here yesterday.RECLAIM USED CRANKCASE
for a few cents per gallon. No spe-
cial equipment. Stamp for particulars.
2 M.Tavish Block, Calgary, Alberta.The Blairmore Bearcats played the
Gleichen Gunners, plus the referee, to
a two-two draw at the arena last
night, but lost the series 4-3.Dave Kemp asked a few days ago
why Ferguson should have such suc-
cess at planting trees, and the an-
swer was: "Well, he's an undertaker."His Lordship the Bishop of Cal-
gary, Rt. Rev. L. Ralph Sherman, D.
D., will hold confirmation services at
St. Alban's, Coleman and St. Luke's
Blairmore, on Sunday next.Petty thieving is still going on in
some places. We read in the Kimber-
ley Courier the other day of Mrs. J.
Whitehead "taking the piano" at Mrs.
E. Cameron's house, Moyie.The Coleman Journal remarks:
Once upon a time there was a parrot
who used to swear terribly. One day
he escaped from his cage, and wander-
ed onto the golf links, and died of
shock.The genius of a certain Arkansas
editor showed itself recently, when
he printed the following news item in
the local columns of his paper: "Miss
Beulah Blank, a Batesville belle of
twenty summers, is visiting her twin
brother, aged 32."Mr. A. McTeer, provincial man-
ager for the Sun Life Assurance Co.,
was down from Calgary yesterday on
a visit with the local district repre-
sentative, Mr. C. J. Tompkins. Mr.
McTeer continued west by this morn-
ing's train.Communists cannot rent a room in
the Donald Ross school, Edmonton,
for meeting purposes, at least not at
the present time, if a recommenda-
tion passed by the building and
grounds committee Wednesday after-
noon is ratified by the Edmonton pub-
lic school board. The law imposes a
fine of \$1,000 on the use of a build-
ing for an illegal assembly.Mr. W. H. Chappell, senior, spent a
happy day on the occasion of his
seventy-seventh birthday, February
the 17th, at the home of his daughter
and son-in-law, Mr. and Mrs. A. C.
Hicks, 1068 - 106th Street, Edmon-
ton, where he has been living since
leaving Bellevue in August, 1930.
Good wishes were extended him by
neighbors and friends, also over the
air Farmer CJCA. Mr. Chappell
sends his remembrances to all old
friends in The Pass.As long as policies on local munici-
pal matters are formulated by the
local union leaders, there cannot be
any complaint. It is when Communist
emissaries try and gain control,
through the unions, that stout opposi-
tion will be made, for they use un-
constitutional methods and do not
stick to the truth. There are men with
sufficient common-sense in the local
unions to advocate the interests of
the workers without the domination
of those whose policy always has been
to bore from within and wreck estab-
lished institutions. They make others
the instruments of their machina-
tions, and very quickly sweep aside
those who have opinions of their own.
Such is the dictatorship of the pro-
letariat. There is no compromise.
—Coleman Journal.**Week - End Specials**

GOOD TOAST!

THAT plate of crisp, hot-but-
tered toast for breakfast
carries good cheer through the
day. But do you know that it is
the presence of sugar in Bread
that gives the delicate golden-
brown bloom and beguiling flav-
or in toasting?

MOTHER'S BREAD
baked with an extra amount of cane-sugar
makes perfect toast. It coaxes back the
appetite — starts the 'day right' — delights
your family at any meal.
